

# GRADUATE ACADEMIC ADVISING AND ENGAGEMENT

---

## Academic Advising and Support

Graduate Academic Advising (<https://www.bentley.edu/offices/academic-services/graduate-students/advising/>) supports student learning and success through comprehensive advising services aimed at promoting academic progress and achievement. Our programs are grounded in Bentley's academic integrity policies, institutional academic standards, and the community values reflected in the Bentley Core Values (<https://www.bentley.edu/about/mission-and-values/>).

To support this mission, we offer individualized academic advising and a range of academic support programs. Our graduate advising team is an integral part of a campus-wide advising network that connects students with MS and MBA program directors, internship coordinators, and other key campus resources and professionals.

## Student Engagement

Within Graduate Academic Advising and Engagement, our objective is to help graduate students identify resources and services which can make the graduate experience one that is robust, engaging, and meaningful. The graduate school supports a lively community of full-time and part-time students from around the world, whose diverse experiences and backgrounds contribute to learning and personal development beyond the scope of the academic program of study. Our students are offered unique professional and social opportunities accessible to all graduate students, whether their experience takes place on campus or is experienced through remote modalities. We are committed to providing graduate students with support outside of the classroom to enhance the graduate student experience.
