

UNDERGRADUATE MAJORS

Undergraduate students pursue either a Bachelor of Science degree or a Bachelor of Arts and Sciences degree:

- **Bachelor of Science (B.S.)** degree programs are designed for students who want to combine a broad approach to business studies with a specialization in a specific discipline.
- **Bachelor of Arts (B.A.)** degree programs are designed for students who want to concentrate in areas such as the humanities, the social sciences, or natural and applied sciences. Students supplement their major with business courses that strengthen their professional career opportunities.

Review the Course Sharing Policy (catalog.bentley.edu/undergraduate/degree-requirements/#coursessharing) for guidelines related to how a course may or may not apply to different requirements within the curriculum.
