MESSAGE FROM THE DEANS

Congratulations on choosing Bentley University! We provide a transformative learning experience combining cutting-edge business education with a firm foundation in the liberal arts and sciences. During your time here, you will develop not only technical skills but also the critical and creative thinking skills needed to excel in the business world.

A Bentley education does more than just help you to get a job. We support your development as a professional, as a leader committed to adding value to organizations, and as a citizen in our broader society. We hope you will gain a rich appreciation of societal and cross-cultural issues, ethics and social responsibility, as well as historical and environmental perspectives. Our ideal graduate is articulate, creative, ethical and knowledgeable—as well as broad-minded and comfortable with ambiguity.

Chances are you were initially drawn to Bentley because of our top-ranked business education, world-class facilities, and a faculty of engaged teacher and scholars. To take full advantage of these resources is to chart your own unique course, which might include study abroad, internships, undergraduate research, service learning, and/or four- and five-year combined bachelor’s/master’s degrees. We hope you will take full advantage of this wealth of transformational opportunities.

Looking through this catalog, you will see a menu of possibilities, that might, at first glance, overwhelm you. Bentley’s highly talented and committed staff will help you sort through the options to find a curriculum suited to you. An academic adviser can help you understand the curriculum, explain programs, answer questions, and point out electives that may not have caught your eye. Support is available through Academic Services, Disability Services, the Health Center, the Counseling Center, Cronin Office for International Education, Center for International Student and Scholars, the Multicultural Center, the Residential Center and the Spiritual Life Center.

While you are here, we encourage you to get involved in campus life. Your college years will pass more quickly than you might imagine; be sure to challenge yourself to make the best of all the opportunities that come your way.

With our best wishes,

Michael Johnson-Cramer
Dean of Business

Rick Oches
Dean of Arts and Sciences
